Taught programming fundamentals, Python, and JavaScript.

2013

Pyladies

San Francisco, CA

Programming Instructor

Taught programming fundamentals & Python

projects

werewatching.tv

Web App

A web app that functions like IRC mixed with watching youtube videos. Users can create channels, chat, and watch videos together, synced in real time.

Tech Stack:

- Meteor Framework (Bundles MongoDB, NodeJS, a templating system and a variety of other nice technologies together)
- Deployed on Ubuntu Server 14.04
- Hosted on Microsoft Azure
